# FUNCTIONS

**JAMES & NICHOLSON** is functional and fashionable corporate fashion clothing and promotion wear – the brand stands for sustainable, social and environmentally responsible clothing. The brand includes a large selection of T-shirts, polos and sweatshirts in cotton or cotton mix and jackets in up to 40 colourways, as well as functional sportswear for a wide range of sports. The selection is perfectly completed by professional workwear as well as even more functional business wear. Moreover, **JAMES & NICHOLSON** offers a wide range of products in larger sizes for men and women – going up to 5XL. Over 20,000 items are available from stock with a 97% stock availability. This ensures secure and fast response times. The items can be individualized with imprint or embroidery according to customer specifications. The corresponding decoration capacities inhouse ensure a flexible and rapid completion.

The customer is at the centre of daily activities, making customer service a high priority. Therefore, quality is the be-all and end-all of the product lines. All textiles are REACH compliant and are manufactured according to certified OEKO-TEX® Standard 100. Since 1999 social and environmental aspects have been integrated into the company code of conduct.

**JAMES & NICHOLSON and myrtle beach:**  
always up to the minute and thus trend-,  
quality- and trend-conscious

**JAMES & NICHOLSON and myrtle beach** stands for:  
Quality – respectfully made on Earth!

#### coldblack®

Textiles with a coldblack®-finish afford optimum protection against heating up through sun rays. They stay cooler and protect reliably against UV rays (min UPF 30). The effect of this is that the person wearing these garments does not sweat so easily, feels better and is even more efficient. coldblack® is a registered trademark of Schoeller Technologies AG, Switzerland (patent pending).

#### UV-Protection

Textiles with the symbol UV-protection are characterized by sun protection comparable to the protection of a sun-screen. The information is given in UPF (UV-protection factor). This indication implies the factor by which the length of time spent in the sun can be extended without getting sunburnt. It is calculated in the same way as the sun protection factor of a sun-screen.

#### CoolDry®

Due to the CoolDry® finish moisture is transported to the outside and creates a comfortable feeling. The textiles dry quickly, are breathable and ideal for all activities.

# RESPONSIBILITY

#### Social Compliance “BSCI”

As members of the ‘BSCI/Business Social Compliance Initiative’ we commit ourselves to implementing the BSCI code of conduct as part of our business relations with our manufacturers and thus to improving the working conditions within our supply chain and to producing our textiles fairly. This includes our clear commitment to the employees’ right to freedom of assembly, protection against discrimination, and an adequate remuneration, that is, at least the statutory national minimum wage. Another central component is the occupational safety regulations. That is how we guarantee that employees do not work more than 48 hours a week and that the occupational safety regulations of the ILO (International Labour Organisation) are met. Child labour, forced labour or precarious jobs are not tolerated.

Several social compliance departments in the countries of production test all the factories thoroughly and make sure that these conditions are met.

<http://www.bsci-intl.org/>

#### OEKO-TEX® Standard 100

This standard guarantees that textile and non-textile product components pose no threat to health.

[www.oeko-tex.com](http://www.oeko-tex.com)

#### Adherence to the REACH-Regulations

We assure you that when manufacturing our **myrtle beach** caps and **JAMES & NICHOLSON** textiles we meet the obligations of the REACH-regulations.

#### Protection of the Environment

All the manufacturing plants of our **myrtle beach** caps and **JAMES & NICHOLSON** textiles work on the highest environmental level and pursue the principle of sustainability. For example, all the manufacturing plants dispose of a water purification plant.

#### Quality Standard

The merchandise is regularly tested by certified testing institutes in the countries of production regarding the given parameter. Moreover, in cooperation with SGS, Testex, Hohenstein and other renowned institutes the quality is continually controlled.

A man with short brown hair and a beard, wearing dark sunglasses and a dark navy blue polo shirt. He is standing against a light blue background, with his shadow cast behind him. He is also wearing blue jeans and a silver watch on his left wrist.

## THERMO SUBLIMATION

### Thermo sublimation for great prints!

Sublimation prints are an amazing way to create bright, long lasting colours with photo realistic qualities. Sublimation ink, when heated, turns into a gas that penetrates and permanently dyes polyester fabric, creating a clean, professional look with a soft touch.

Start-up costs are minimal as processing is performed by an ink jet printer using heat transfer paper. The resulting print is in mirror image and is transferred onto the garment by using a heat press at a specified temperature and pressure. This is a low cost operation suitable for one-offs or production series.
